

FINANCE, INSURANCE, COMMERCIAL BUILDINGS

TIL TECHNOLOGIES secures many buildings in the service sector. From high-rise buildings to business centres, multi-tenant or LEED/HEQ (High Environmental Quality) buildings, all share common needs ; controlling a large number of areas and offices , managing important flows (employees, visitors, cars, elevator...) and limiting energy use. The solutions offered by TIL TECHNOLOGIES provide an answer to the needs in the tertiary industry :

HIGH-RISE BUILDINGS

- Tower FIRST Ernst & Young - Paris
- Tower ACACIA AGF - Paris
- Tower CMA-CGM - Marseille
- Tower OXYGENE - Lyon
- Tower MEDITERRANEE - Marseille

HEAD OFFICES IN SERVICE SECTOR

- SFR - St Denis
- LA FRANÇAISE DES JEUX - Boulogne
- OCDE - Paris
- SPIR GROUP - Aix en Provence
- ETDE - Bordeaux
- AL-JAZEERA - Paris
- MERCEDES - Montigny le Bretonneux
- ALTRAN - Paris
- EIFFAGE RHONE-ALPES - Lyon
- EURONEWS - Lyon
- TNS SOFRES - Paris
- HIGH CO - Aix en Provence
- SNCF - Paris

Protecting assets

- Prevent the thefts by a meticulous management of the accesses by badges and an effective **supervision of intrusion**.
- Adapt the technologies of identifications according to the sensitivity level of the site (**badge + code, biometrics...**).
- Easily connecting all the offices via the access control system, by installing **electronic crutches and cylinders**.
- Manage the use of the existing keys (technical rooms, car park...) with **electronic keybox**.
- Secure places and accesses by **CCTV**.
- Supply tools to **assist surveillance patrols** on the field.

Controlling energy

- **Monitoring energy** via a real-time graphic interface.
- Setting up **automatisms** on presence or passage (lighting, heating...)
- Installing TIL **low energy consuming products** to reduce wiring, batteries and box size...

OFFICE FACILITIES

- EUROPOLE WTC - Grenoble
- GREEN OFFICE - Meudon
- ETOILE PLEYEL - Saint Denis
- COPERNIC - Noisy Le Grand
- GECINA CRYSTALYS - Velizy
- H2O - Levallois
- LE BALTHAZAR - Paris
- LE PRESIDENT - Osny
- LE STADIUM - St Denis
- HORIZON - Noisy Le Grand

BANKS, INSURANCES

- BNP PARIBAS
- SOCIETE GENERALE
- LA BANQUE POSTALE
- CREDIT MUTUEL DE BRETAGNE
- AXA
- MAAF
- APRIL
- AVIVA
- MMA

Managing flows

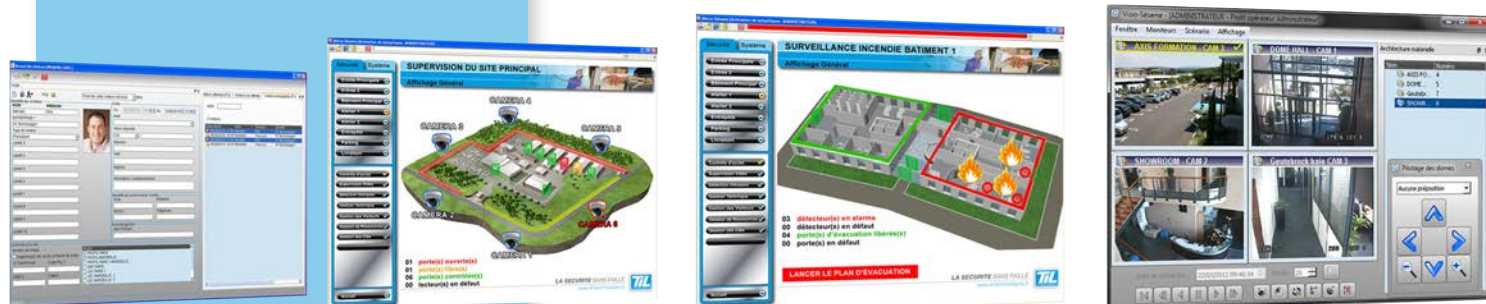

- **Managing on-site visitors**, external providers and the temporary collaborators via a dedicated interface: pre-registering feature, validity date and times for credentials, real-time census.
- **Elevator management interface**, for access control and to provide smooth building moves.
- Smooth parking access provided by **long distance readers** and/or **license plates** and/or **bluetooth reader**.

Optimize operations

- Efficiency and system interaction (intrusion, video, fire, alarms...) improved with a **centralized graphical interface**.
- Managing the presence of several companies in a same building, with fine right management (common vs private access) or **cross-system communications**.
- Set up **gateways with the other databases** of the company to avoid the double data entry and update the rights at real-time (human resources, management of appointments).
- Providing **additional applications** in the access control badge: cafeteria, photocopies ...
- Ensuring operation with **server redundancy** or the **offline mode**.
